

## Overview Product Group-Specific Shared Documents

In order to help the medical technology sector in Baden-Wuerttemberg implement the Medical Device Regulation (MDR) the Ministry of Economic Affairs, Labour and Housing Baden-Wuerttemberg made funds available for a MDR & IVDR Fast-Track Support BW programme (“MDR & IVDR Soforthilfe BW”). In the period 2019 to 2021 the programme’s five measures are aimed at saving time and resources for the companies affected (for more information, please visit [www.bio-pro.de/en/projects/mdr-ivdr-fast-track-support-bw](http://www.bio-pro.de/en/projects/mdr-ivdr-fast-track-support-bw)). This includes, inter alia, developing guide-lines on specific issues and sharing newly acquired information at events. In addition, access to clinical trial centres will be facilitated to help companies that are required to conduct clinical trials due to MDR. BIOPRO Baden-Wuerttemberg GmbH is coordinating the MDR & IVDR Fast-Track Support BW.

Within the measure “Product Group-Specific Shared Documents” company consortia develop basic documents for individual medical device groups, which can be used as a basis for creating individual certification documents. Interested companies can purchase the jointly prepared basic documents from the respective moderating organization. The fee is maximum 1,000 Euro (incl. VAT) for companies in Baden-Wuerttemberg and 1,785 Euro (incl. VAT) for companies located outside Baden-Wuerttemberg.

### Product Groups with available basic documents in English:

#### **Biopsy instruments**

Document: Literature review  
Moderator: MedicalMountains GmbH

#### **Dental Instruments**

Document: Literature review  
Moderator: MedicalMountains GmbH

#### **Electrocoagulation**

Document: Literature review  
Moderator: MedicalMountains GmbH

#### **Flexible Endoscopes**

Document: Literature review  
Moderator: MedicalMountains GmbH

#### **Instruments for the surgical suture**

Document: Literature review  
Moderator: MedicalMountains GmbH

#### **Light Sources and Light Cables for Endoscopes**

Document: Literature review  
Moderator: MedicalMountains GmbH

#### **Measurement devices**

Document: Literature review  
Moderator: MedicalMountains GmbH

#### **Mechanical surgical saws**

Document: Literature review  
Moderator: MedicalMountains GmbH

#### **Medical Devices Artery Clamps**

Document: Literature review  
Moderator: MedicalMountains GmbH

#### **Medical Suction Devices**

Document: Literature review  
Moderator: MedicalMountains GmbH
